Motivated and dedicated individual seeking a challenging position as a Software Developer where I can utilize my strong programming skills and knowledge in building scalable web applications, along with my proficiency in relational database design and object-oriented design.

EXPERIENCE

Java Developer Intern | Aug 2022 - Nov 2022

Invictus Engineers, Hyderabad

- Led the development of Java applications, spearheading a dynamic web-based system with Servlets and JSP during the internship.
- Strengthened problem-solving skills through active participation in collaborative code reviews, resulting in significant contributions to successful software projects and showcasing adaptability in diverse technical settings.

PROJECTS

Hospital Management System

- Enhanced hospital operations through a cohesive system, integrating HTML, CSS, JavaScript, Servlets, JSP, and JDBC for streamlined information flow and increased efficiency.

CRUD Application with Spring Framework

- Implemented a robust CRUD application using Spring, demonstrating proficiency in Java, Spring, Hibernate, and MySQL.
- Designed and implemented features for creating, reading, updating, and deleting data, contributing to project success.

EDUCATION

Bachelor of Technology (B.Tech.) | Jun 2019 - Jun 2022

Mother Teresa Institute of Science and Technology, Sathupally

SKILLS

Programming Languages: Java

Frameworks: Spring, Hibernate

Frontend Technologies: HTML&CSS, JavaScript, React

Database: MySQL

LICENSES & CERTIFICATIONS

Java Certification | 2022 HackerRank - 07A59343BCE3

React Certification | 2024 AlmaBetter
