Motivated and dedicated individual seeking a challenging position as a Java Developer where I can utilize my strong programming skills and knowledge in building scalable web applications, along with my proficiency in relational database design and object-oriented design.

EXPERIENCE

Java Developer Intern | Aug 2022 - Nov 2022

Invictus Engineers, Hyderabad

• Led the development of Java applications, spearheading a dynamic web-based system with Servlets and JSP during the internship.

• Strengthened problem-solving skills through active participation in collaborative code reviews, resulting in significant contributions to successful software projects and showcasing adaptability in diverse technical settings.

PROJECTS

Hospital Management System

• Enhanced hospital operations through a cohesive system, integrating HTML, CSS, JavaScript, Servlets, JSP, and JDBC for streamlined information flow and increased efficiency.

CRUD Application with Spring Framework

• Implemented a robust CRUD application using Spring, demonstrating proficiency in Java, Spring, Hibernate, and MySQL.

• Designed and implemented features for creating, reading, updating, and deleting data, contributing to project success.

EDUCATION

Bachelor of Technology (B.Tech.) | Jun 2019 - Jun 2022

Mother Teresa Institute of Science and Technology, Sathupally

SKILLS

- Core Java
- Object-Oriented Design
- Relational Databases
- JDBC
- JSP
- DMBS(SQL)
- Tomcat
- J2EE
- Spring Framework
- Hibernate

LICENSES & CERTIFICATIONS

Java Certification | 2022
